

# THE SOFT REMOTE

## Features

The EnOcean Soft Remote is a battery-free remote control which directly controls light, roller shutters, domestic appliances, garage doors, etc. It is magnetic, shockproof and splash-proof and can be used to launch scenarios.

### NO BATTERY: NO MAINTENANCE

The Soft Remote works thanks to the mechanical energy generated by button push

### MAGNETIC

The Soft Remote can be fixed on all metallic surfaces

### SPLASH-PROOF

IP53, the Soft Remote can be used near water, in the kitchen or in the bathroom

### SHOCKPROOF

Its silicon case makes it shock resistant

## Technical specifications

**Power source:** Magneto-resistive (no battery)

**4 buttons (2 channels)**

**Embedded magnet for metallic surface sticking Spill and shock resistant**

**Protection rating:** IP53

**Radio frequency range: 868.0 to 868.6 MHz or 905 to 915 MHz (according to the reference)**

**Range:** up to 30m indoors

**EEP (EnOcean Profile):** F6-02-02

List of compatible home automation gateways available on [www.nodon.fr](http://www.nodon.fr)

## Comfort

Individual lighting management in open space

Open or close home access (gate, garage door) from the car

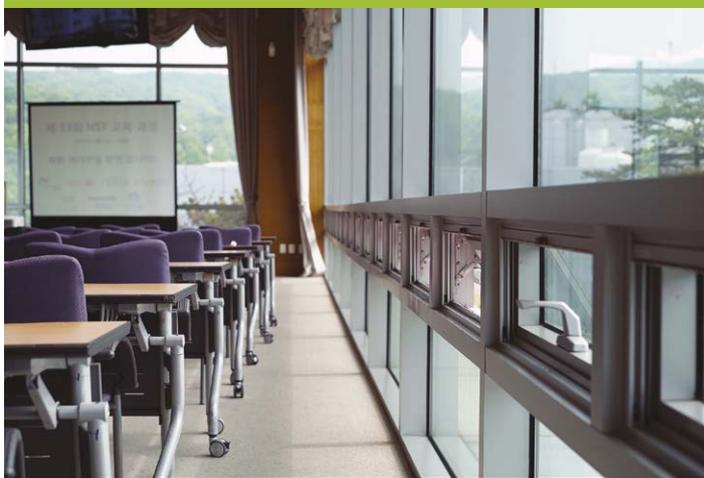

Launch a scenario from the home with a single press: open the pergola and swimming pool cover\*

## Serenity

Open the barrier and turn the light ON when someone enters the campsite at night\*

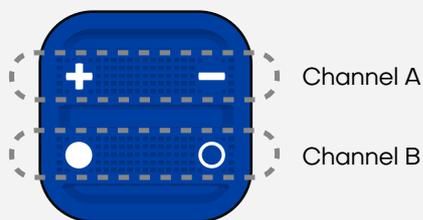

## Renovation

Simultaneously close all the classroom shades

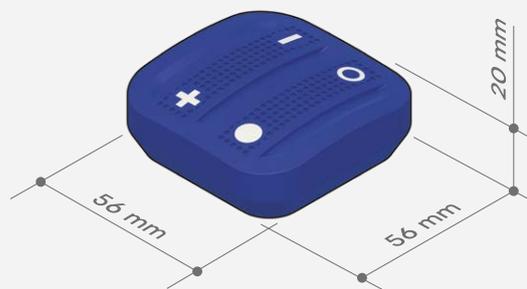

\*Home automation gateway needed

### Use

The Soft Remote has 4 buttons, that work via channels.
